Air Quality Forecast for the UK

Issued by the Met Office

Today: Low levels of air pollution are expected across the UK, with strong winds preventing the build-up of any local pollutants. Although there is the slight chance of the odd pocket of Moderate across the Northern and Western Isles.

Tomorrow: Low levels of air pollution on Sunday, as Atlantic air moves across the UK. Still the chance of a few pockets of Moderate levels across the Northern and Western Isles.

Outlook: Generally Low levels of air pollution forecast through the outlook period. The odd pocket of Moderate possible in the far northwest on Monday.
